## CHALLENGES FOR YOUR USERS

Is your desk organized in a way that you have your work items handy fast and easy?  
Would you like the same in your IBM Content Navigator UI?

Would you like to see all relevant features and information centralized on your start page in ICN?

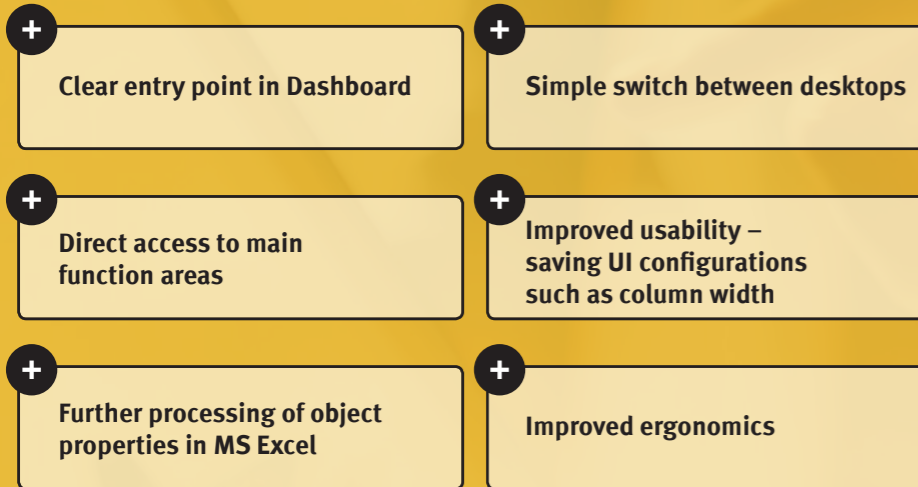

Would you like to manage your tasks with automated resubmissions?

Would you like to use data like object properties directly in MS Excel – without exporting them manually?

Would you like to save the configuration of your ICN columns and areas, so you don't need to rearrange them manually?

## SOLUTION - CENIT ICN TOOLBOX

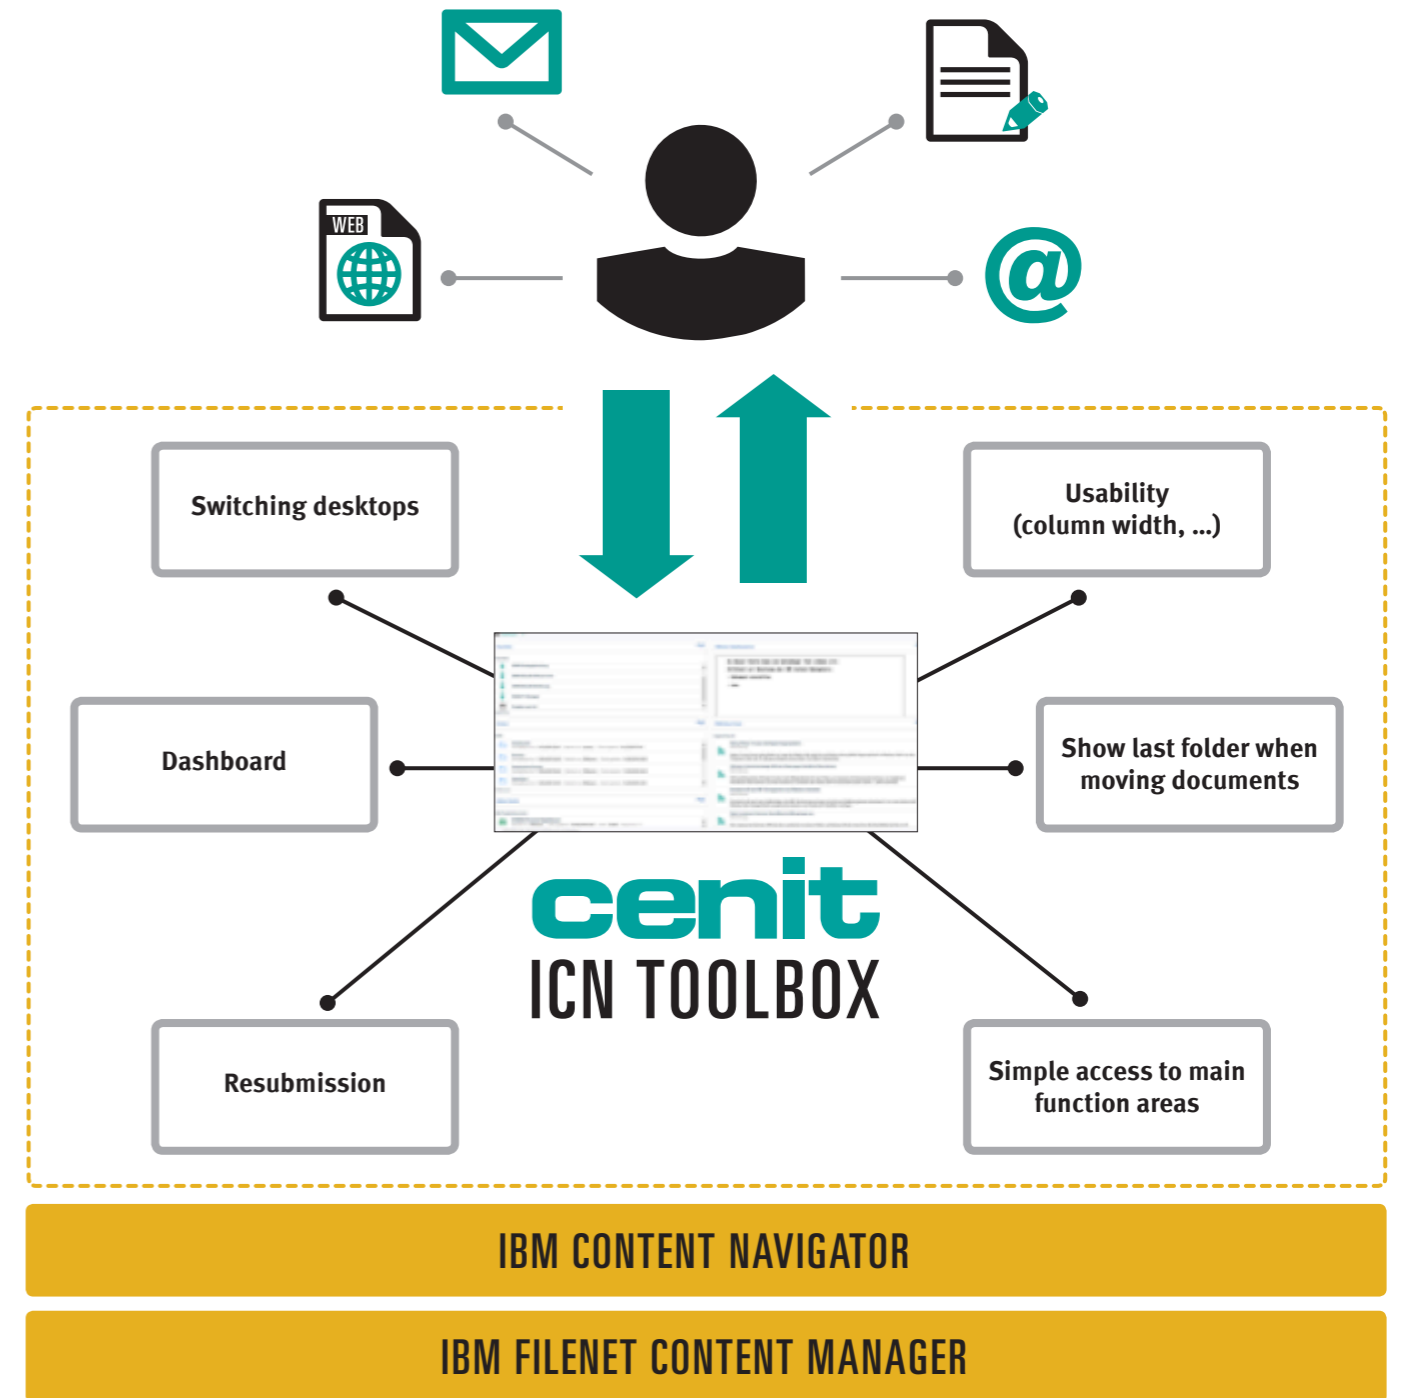

CENIT ICN TOOLBOX provides useful extensions for ICN when working with IBM FileNet Content Manager:

The main functions of CENIT ICN TOOLBOX are:

- Neat dashboard and configurable portlets, e.g. news, tasks, and searches
- Simple switch to different desktop
- Export of properties in Excel format
- Keep viewing settings of user (areas, column width)
- Faster access to main functions, e.g. search
- Resubmission of documents
